1. Welcome to BrewStaffAI

BrewStaffAI helps Jungle Brew put the **right number of cashiers and baristas** on the counter every hour, so customers don't wait too long and the team isn't overworked during rush hours. It also gives staff a simple way to tell the manager how their shift went.

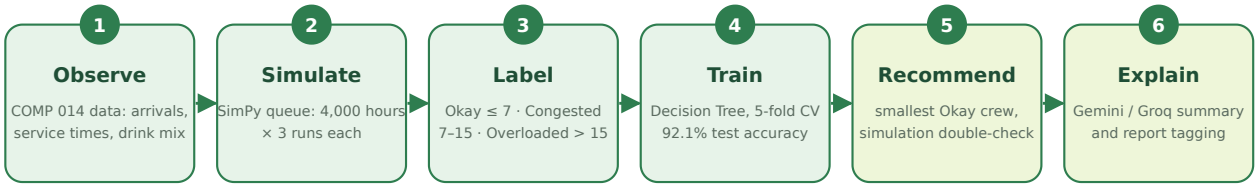

👩‍🍳 What staff can do

- See today's crew plan
- Send an end-of-shift report (about 1 minute)
- Report an incident (broken machine, supplies ran out, something went well)
- Read the manager's replies; edit or delete own report within 24 hours

🧑‍💼 What the manager can do

- Let the AI plan every hour of the day, adjust it, and publish it
- Test one hour (promo, someone absent)
- Read, reply to, resolve, and archive staff reports; get a weekly AI summary
- See pilot results and AI accuracy; manage accounts and café settings

How the AI helps (in 30 seconds)

The AI learned from thousands of practice café hours based on Jungle Brew's own data. It predicts how busy each hour will be, recommends the smallest crew that keeps waits at 7 minutes or less, double-checks it, and explains it in simple words. **The manager always makes the final decision.**

✅ Okay
Short waits, 7 minutes or less

⚠️ Congested
Long waits, 7–15 minutes

⛔ Overloaded
Very long waits, over 15 minutes

2. Getting started

What you need

A phone or computer
with Chrome, Safari, or Edge

Internet connection
mobile data or Wi-Fi

Your work account
name@junglebrewpq.com + temporary password from the manager

2.1 Logging in

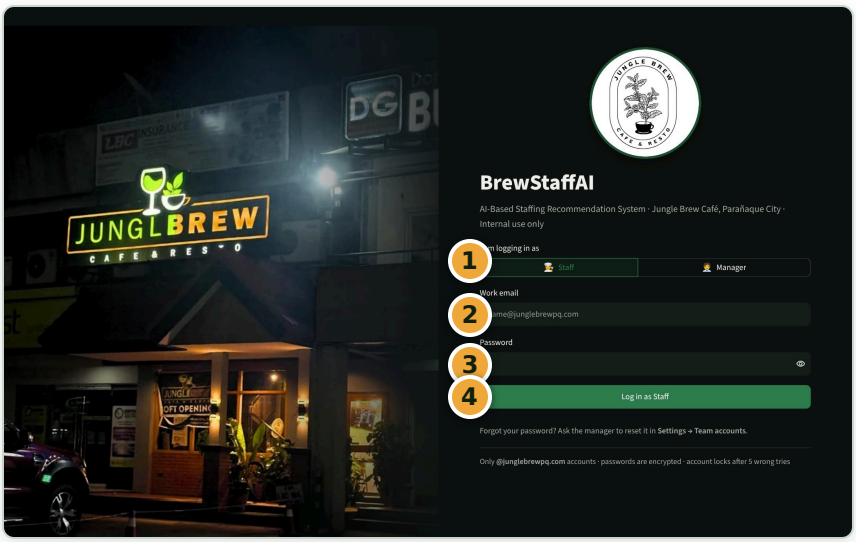

Figure 1. Login page

1 Choose who you are
Tap **Staff** or **Manager**. It must match your account.

2 Work email
Your @junglebrewpq.com email. Personal emails (Gmail, Yahoo) are not allowed.

3 Password
Tap the eye icon to show what you typed.

4 Log in
The button says 'Log in as Staff' or 'Log in as Manager'.

> **Important:** After 5 wrong passwords, the account locks for 5 minutes. Wait, then try again, or ask the manager to reset your password.

2.2 Your first login: set your own password

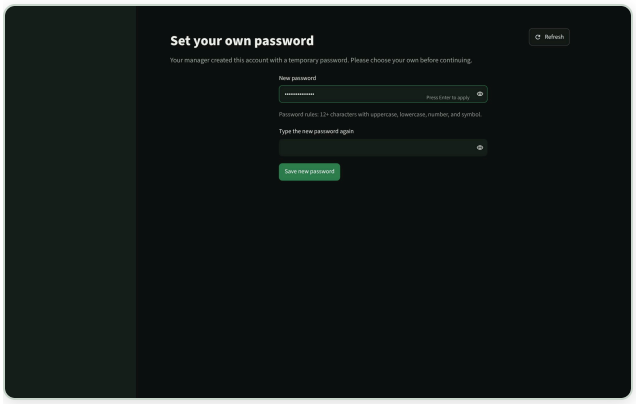

Figure 2. Set your own password (first login only)

1. Log in with the **temporary password** the manager gave you.
2. Type a **new password**. Watch the checklist turn green: 12+ characters, uppercase, lowercase, number, symbol, no common words.
3. Type it again and tap **Save new password**.
4. Keep your password private. Don't write it on the counter or share it.

> **Good password example (don't use this exact one):** `Kape#Mainit2026`

2.3 Read and accept the privacy notice (once)

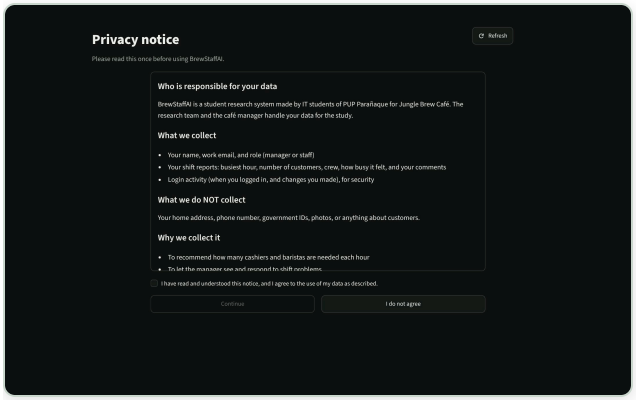

Figure 3. Privacy notice

1. Read what data is collected, why, and who can see it.
2. Tick **I have read and understood…**
3. Tap **Continue**. You won't see this again (you can re-read it in Settings).
4. If you don't agree, tap **I do not agree** and talk to the manager. Taking part is voluntary.

> **Good to know:** Never write coworkers' names, phone numbers, or personal details in your reports. Staff names are removed before text is sent to the AI.

2.4 Put BrewStaffAI on your phone's home screen

Android (Chrome)

1. Open https://brewstaffai.streamlit.app
2. Tap the ⋮ menu (top right)
3. Tap **Add to Home screen** → **Add**

iPhone (Safari)

1. Open https://brewstaffai.streamlit.app
2. Tap the **Share** button
3. Tap **Add to Home Screen** → **Add**

Good to know: If the app shows 'Yes, get this app back up!', tap it and wait about 30 seconds. The free server sleeps when nobody uses it.

3. Finding your way around

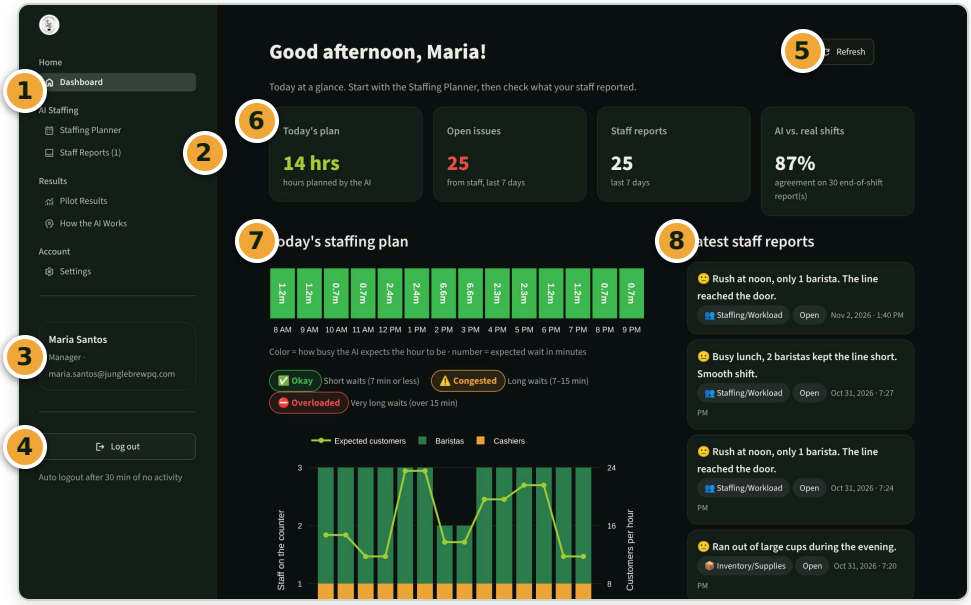

Figure 4. Main screen parts (manager view, sample data)

1 Menu (sidebar)

Go to any page. On a phone, tap » at the top left to open it.

2 Badge

Staff Reports (2) = 2 new reports. Staff see **My Reports (1)** when the manager replies.

3 Your account

Your name, role, and email.

4 Log out

Always log out on a shared device.

5 Refresh

Loads the latest data without logging out.

6 Summary cards

Key numbers at a glance.

7 Today's plan

Colored strip: green = Okay, amber = Congested, red = Overloaded.

8 Latest reports

Newest staff reports with AI tags.

> **Good to know:** You stay logged in when you refresh the page. You are logged out automatically after 30 minutes of no activity.

4. Staff guide

4.1 My Shift Today

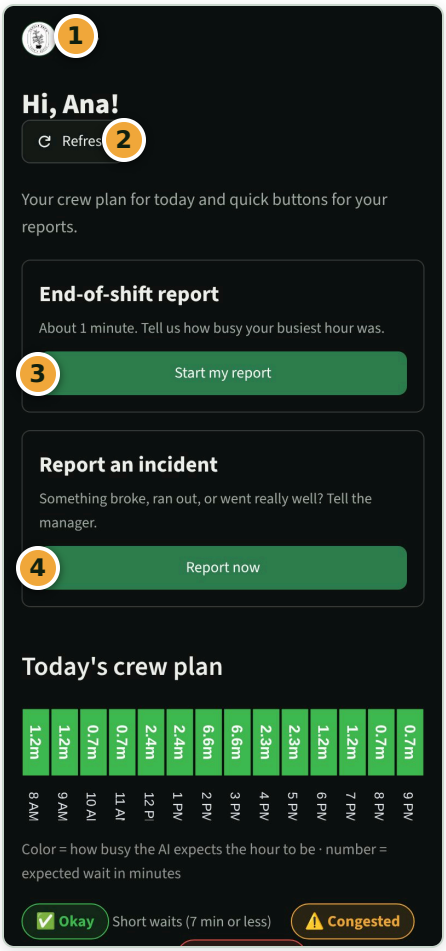

Figure 5. Staff home on a phone

1. **Menu**
   Opens the sidebar: End-of-Shift Report, Report an Incident, My Reports, Settings.
2. **Refresh**
   Get the latest plan.
3. **Start my report**
   Opens the end-of-shift form.
4. **Report now**
   Opens the incident form.

Scroll down to see **Today's crew plan**: one colored block per hour with the expected wait, and the planned number of cashiers (amber dots) and baristas (green dots). **NOW** marks the current hour.

> **Good to know:** If it says the manager has not published today's plan yet, check again later or ask the manager.

4.2 Send an end-of-shift report (about 1 minute)

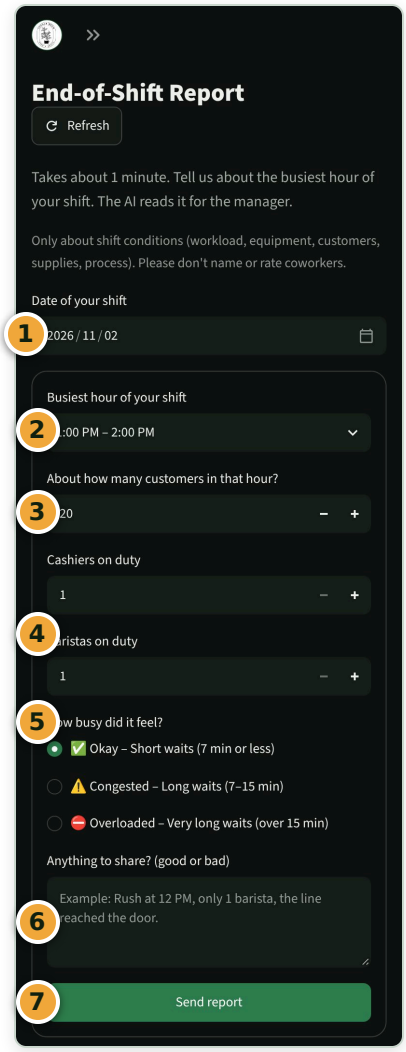

Figure 6. End-of-shift report form

1. **Date of your shift**
   Today by default. Future dates are blocked.
2. **Busiest hour**
   Pick the hour that was most busy. It starts at the current hour.
3. **Customers**
   Your best estimate for that hour.
4. **Crew on duty**
   How many cashiers and baristas were working then.
5. **How busy did it feel?**
   Okay, Congested, or Overloaded. Be honest; there's no wrong answer.
6. **Anything to share?**
   Optional: what went well or wrong. Up to 1,000 characters.
7. **Send report**
   Saves your report and shows the AI result.

> **Important:** Write about shift conditions only (workload, equipment, customers, supplies, process). Don't name or rate coworkers.

What happens after you send

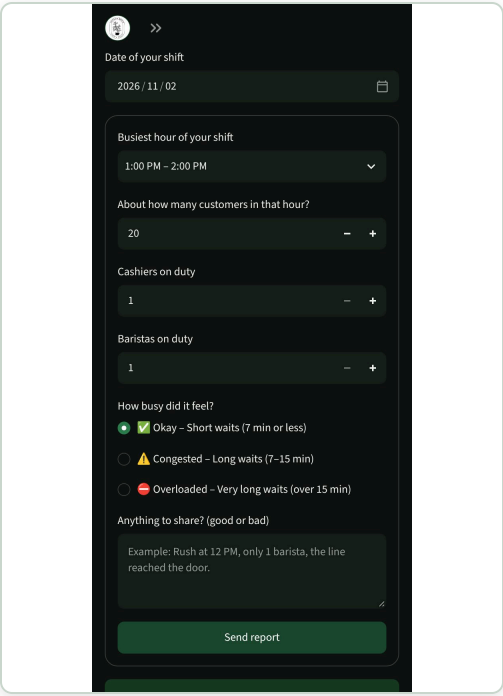

Figure 7. AI result after sending a report

- **Feeling** (🙂 Positive, 😐 Neutral, 🙁 Negative) and **topic** (e.g., 👥 Staffing, 🛠️ Equipment) chosen by the AI.
- **Summary for the manager**: one short sentence.
- **You felt vs. the AI predicted**: if they are different, that's okay; it helps the team check and improve the AI.
- "Generated by Gemini" means the AI read it. "Basic summary (AI is unavailable right now)" means the AI service was busy, but your report was still saved.

4.3 Report an incident

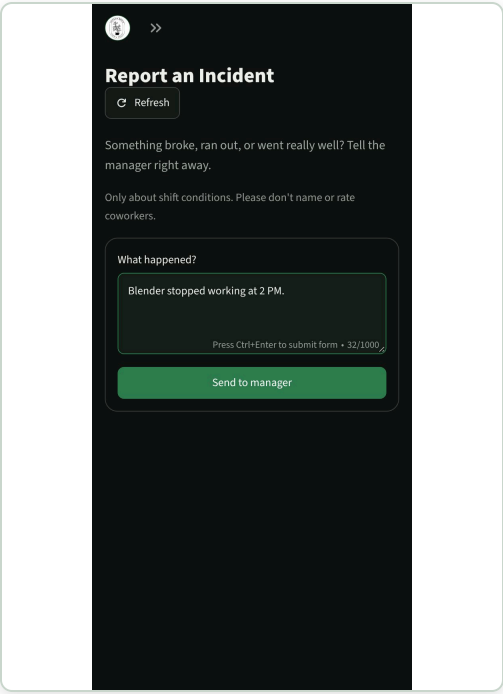

Figure 8. Report an incident

1. Open **Report an Incident** from the menu or the home button.
2. Describe what happened in one or two sentences. Example: *Espresso machine stopped working at 3 PM.*
3. Tap **Send to manager**. The AI tags it and the manager sees it as **New**.

> **Tip:** Good news counts too! Example: *Great teamwork during the lunch rush.*

4.4 My Reports: replies, edit, and delete

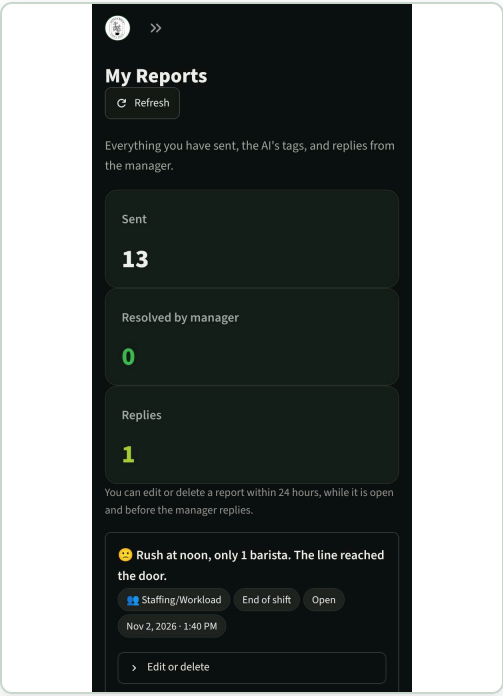

Figure 9. My Reports with a manager reply

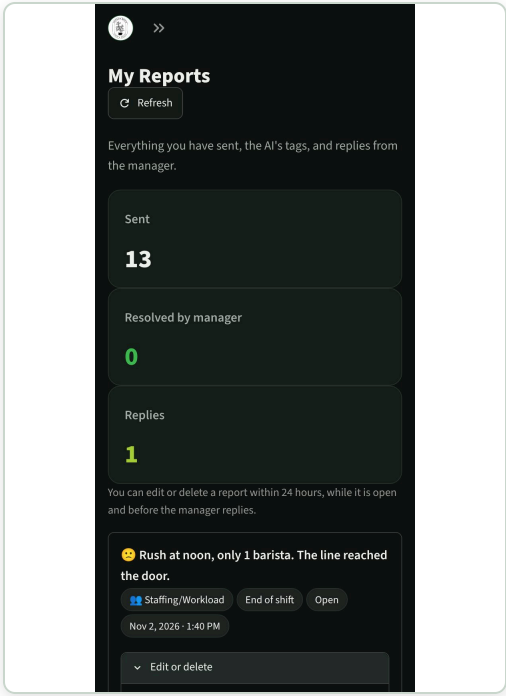

Figure 10. Edit or delete a report

- A green-bordered box shows the **Manager's reply**. The menu shows **My Reports (1)** when there's a new reply.
- **Edit or delete** appears only for 24 hours, while the report is still Open and before the manager replies.
- To delete: tap **Delete report**. A pop-up asks "*Are you sure…?*" because a deleted report cannot be recovered. Tap **Yes, delete** or **Cancel**.

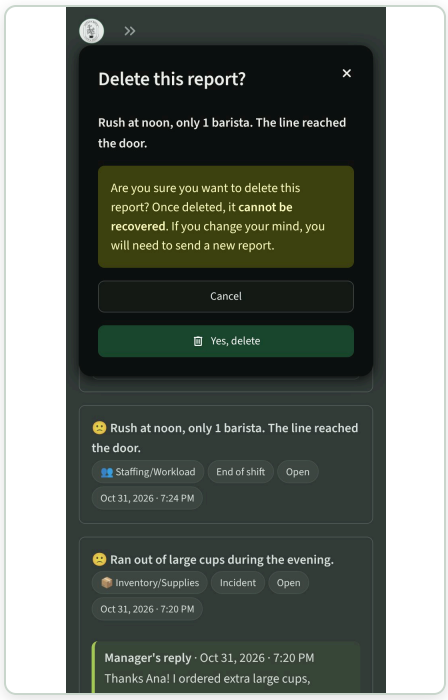

Figure 11. Delete confirmation pop-up

4.5 Settings and built-in help

My account: your profile, the privacy notice, and change password. **User guide** and **How the AI works** tabs give quick, visual help right inside the app.

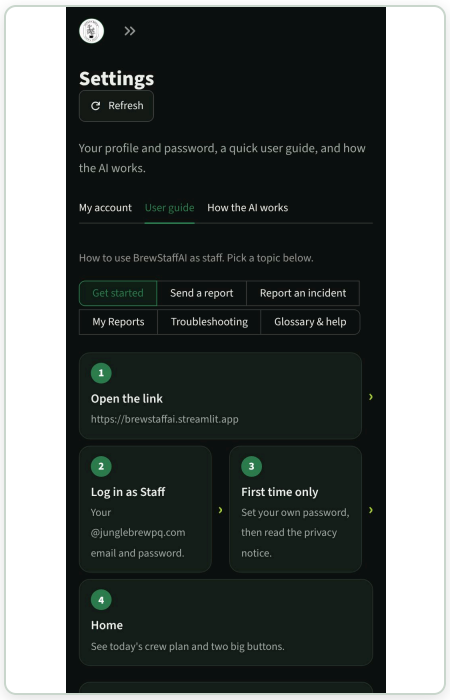

Figure 12. Staff Settings → User guide

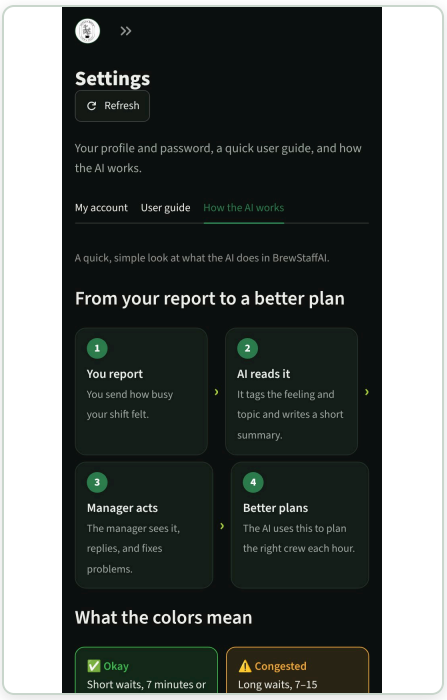

Figure 13. Staff Settings → How the AI works

5. Manager guide

5.1 Dashboard

Shows today's plan, open issues from the last 7 days, number of reports, and how often the AI agreed with staff. If there's no plan for today, tap **Open the Staffing Planner**.

Figure 14. Edit today's published plan (sample data)

Edit or delete today's plan

1. Under today's chart, tap **Edit plan**.
2. Change **Customers**, **Cashiers** (1–2), or **Baristas** (1–4) for any hour.
3. Tap **Save changes**. Changed hours are re-checked by the AI; staff see the update right away.
4. To remove the plan, tap **Delete plan** and confirm in the pop-up.

5.2 Plan the day

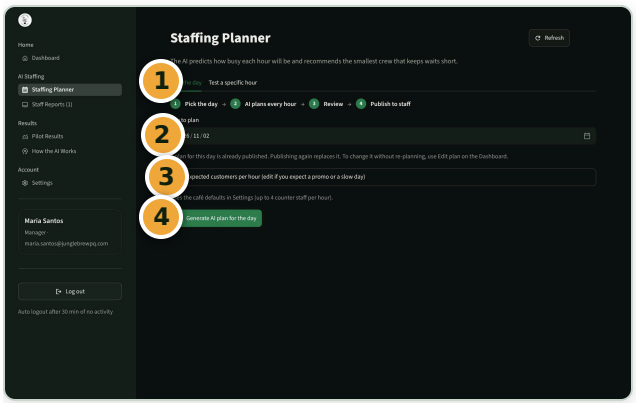

Figure 15. Staffing Planner

1. **Two tabs**
   Plan the day (main) and **Test a specific hour**.
2. **Day to plan**
   Sundays are closed; Saturdays start at 11:00.
3. **Expected customers**
   Optional: edit the numbers for a promo or a slow day.
4. **Generate AI plan**
   The AI plans every hour in a few seconds.

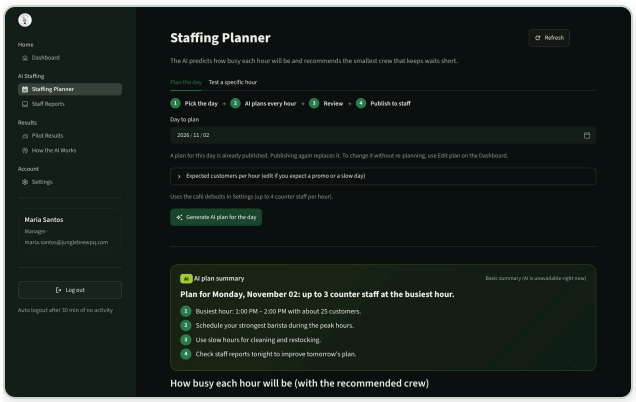

Figure 16. AI plan summary and hour strip (sample data)

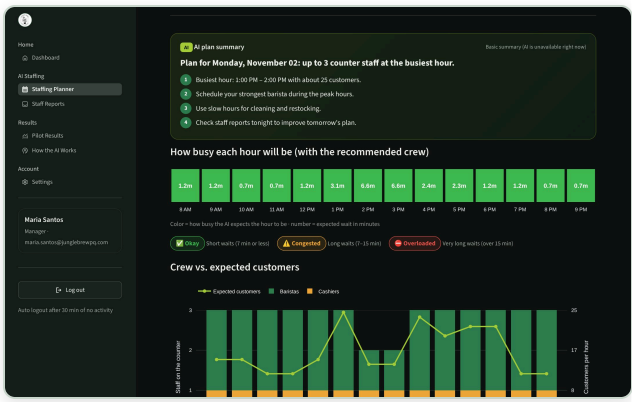

Figure 17. Crew vs. expected customers chart

Change the crew before publishing (you decide)

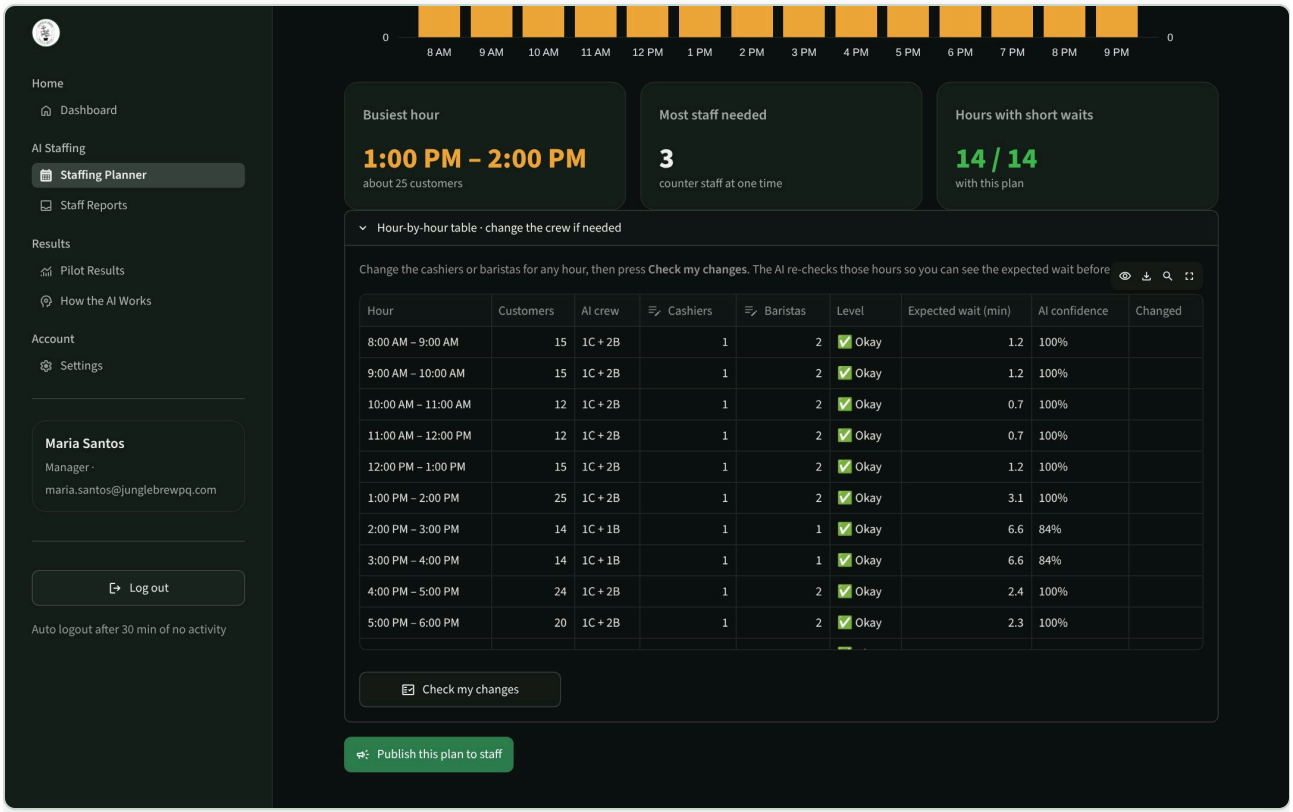

Figure 18. Hour-by-hour table: change cashiers or baristas, then Check my changes

1. Open **Hour-by-hour table · change the crew if needed**.
2. Tap a number in the **Cashiers** (1–2) or **Baristas** (1–4) column and type the new value.
3. Tap **Check my changes**. The AI re-checks those hours and updates the expected wait and colors. **Changed = Yes** marks your edits.

4. Not happy? Tap **Undo my changes** to go back to the AI's plan.
5. Tap **Publish this plan to staff**. Staff see it right away on **My Shift Today**.

> **Good to know:** The AI's original crew is saved next to yours. This helps the team learn when and why the manager adjusts the plan.

5.3 Test a specific hour

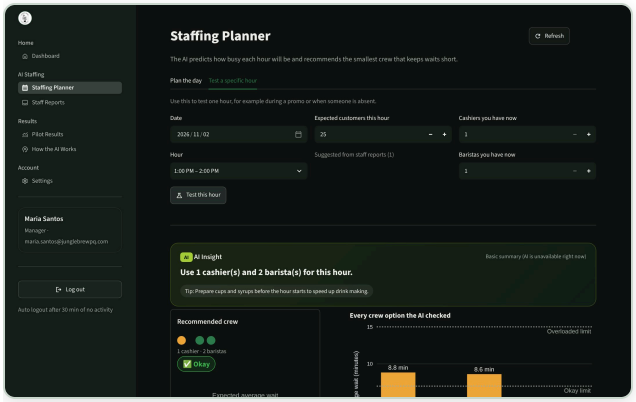

Figure 19. Test a specific hour: recommended crew and all options

1. Open the **Test a specific hour** tab.
2. Choose the date and hour (defaults to now), expected customers, and the crew you have now.
3. Tap **Test this hour**.
4. Read the gauge (expected wait) and the chart of every crew option (★ best = recommended).
5. Open **Details for the panel** to compare your current crew with the recommendation.
6. Tap **Publish this hour to staff** to update just that hour.

5.4 Staff Reports

Figure 20. Staff Reports: filters, summary cards, and charts (sample data)

Filter and review

- **Status:** All, Open, Resolved, Archived
- **Period, Feeling, Topic** filters
- New reports have a green **New** chip
- **Resolve** / **Reopen** buttons on each report

Weekly summary and export

- **Generate AI weekly summary**: top issues, what went well, suggested actions
- **Download summary (CSV)**
- **Download reports (CSV)** for Excel

Reply to a report

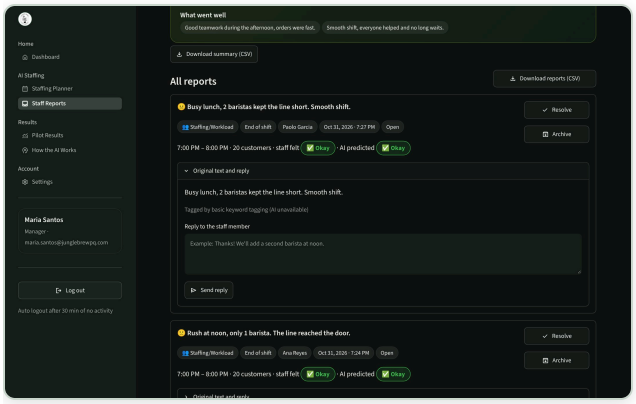

Figure 21. Reply to a staff member (sample data)

1. Open **Original text and reply** under a report.
2. Type your message and tap **Send reply**.
3. The staff member sees it in **My Reports**, with a badge in their menu.

Archive a report

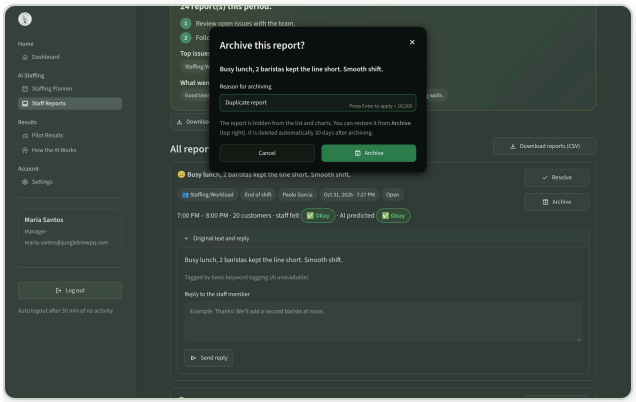

Figure 22. Archive pop-up asking for a reason

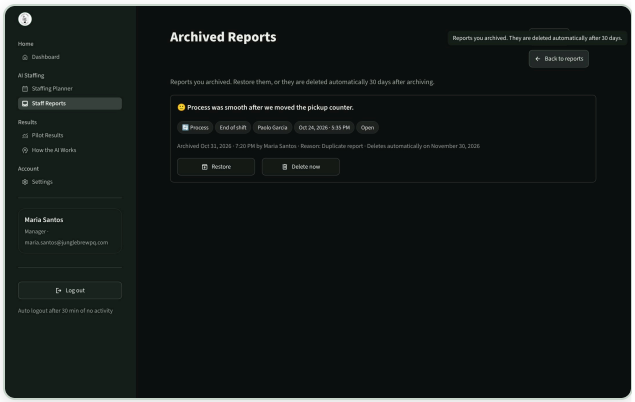

Figure 23. Archived Reports: Restore or Delete now

1. Tap **Archive** on the report card (under Resolve).
2. Type a **reason** (e.g., duplicate, test report) and tap **Archive**.
3. To see archived reports, tap **Archive (n)** under **Refresh** at the top right.
4. Tap **Restore** to bring a report back, or **Delete now** and confirm to remove it for good. Tap **Back to reports** when done.

> **Important:** Archived reports are deleted automatically 30 days after archiving. Download a backup first if you need them.

5.5 Pilot Results

Figure 24. AI vs. staff agreement by day (sample data)

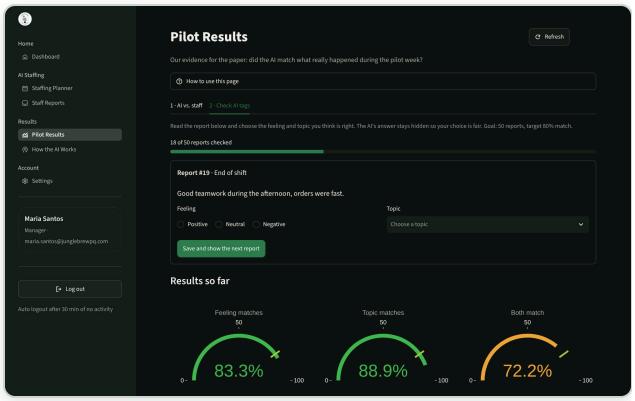

Figure 25. Check AI tags (blind labeling)

- **AI vs. staff:** pick the dates (defaults to the pilot week once it starts). See the agreement %, a chart per day, and a grid of what staff felt vs. what the AI predicted. Download the CSV files for the paper.
- **Check AI tags:** a team member reads one report at a time **without seeing the AI's tags**, picks the feeling and topic, and taps **Save and show the next report**. After 50 reports, the gauges show how often the AI matched (target 80%).

5.6 How the AI Works

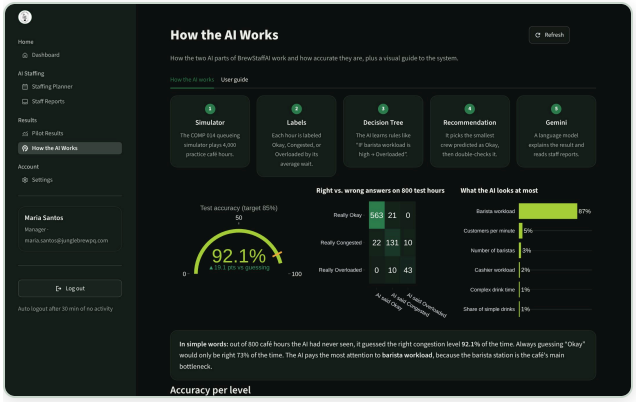

Figure 26. How the AI Works

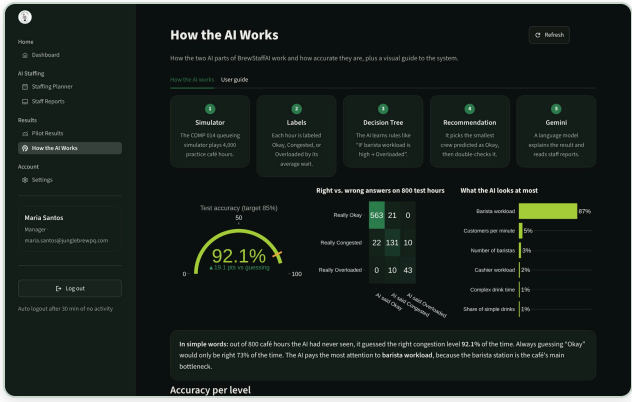

Figure 27. Accuracy per level and response time

The **How the AI works** tab is for visitors and the panel: 5-step pipeline, test accuracy (92.1%), confusion matrix, what the AI looks at, precision and recall per level, and measured response times. The **User guide** tab is a visual version of this manual: pick a topic (Daily routine, Staffing Planner, Staff Reports, Pilot Results, Settings, Colors & AI, Troubleshooting, Glossary & help).

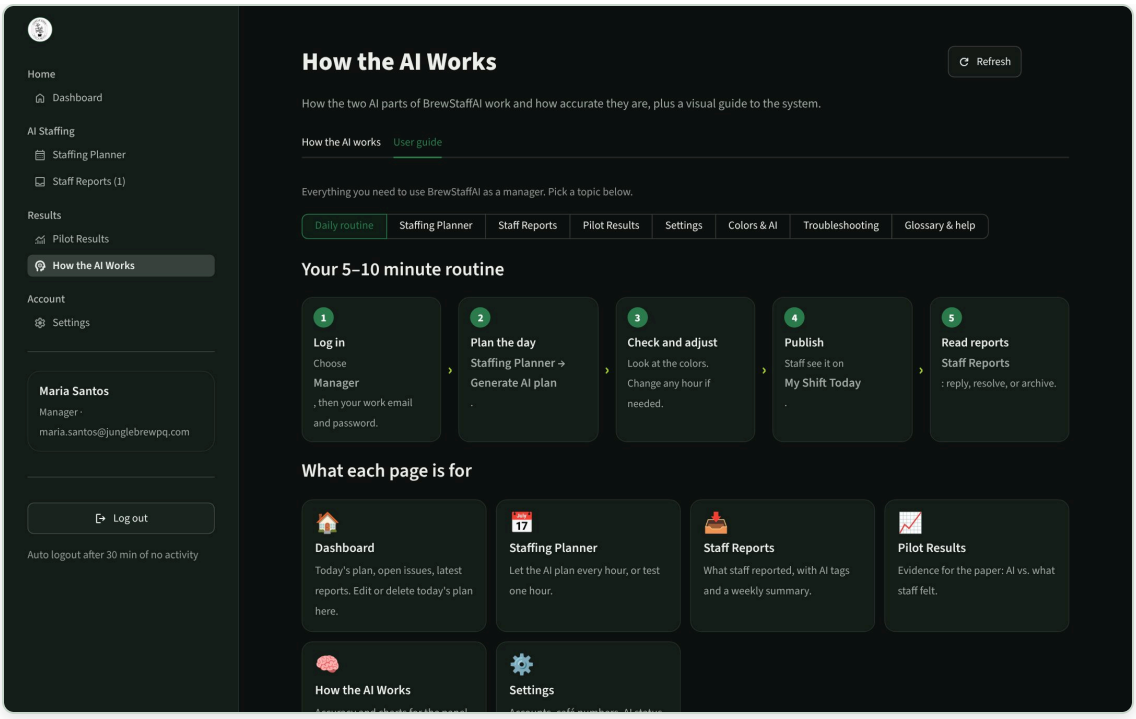

Figure 28. How the AI Works → User guide (manager)

5.7 Settings

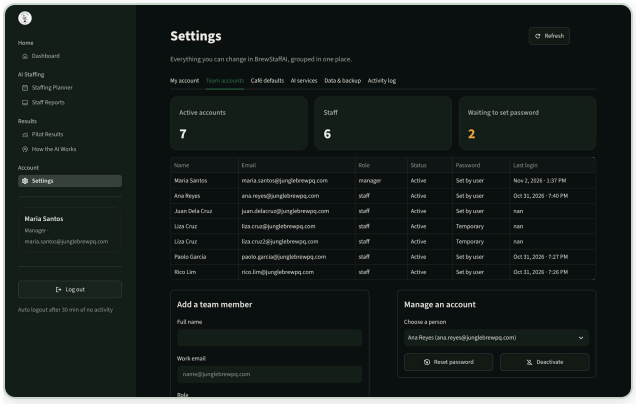

Figure 29. Team accounts

Add a team member

1. Settings → **Team accounts**.
2. Enter full name and work email; choose Staff or Manager.
3. Tap **Create account**.
4. Copy the **temporary password** (shown once) and give it to the person privately.

Manage an account

- **Reset password**: creates a new temporary password and signs the person out.
- **Deactivate / Reactivate**: blocks or restores access.

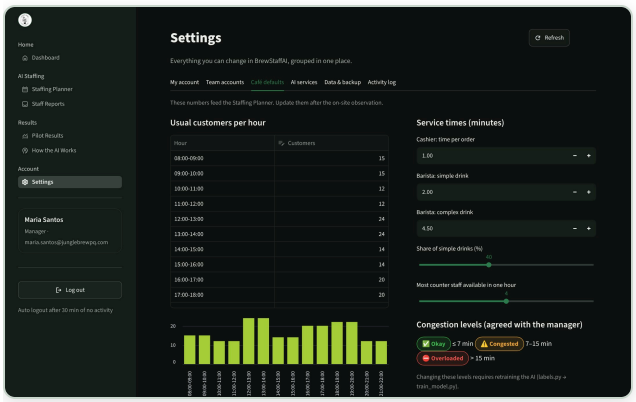

Figure 30. Café defaults

Café defaults

- **Usual customers per hour** for each opening hour.
- **Service times:** time per order, simple drink, complex drink, share of simple drinks.
- **Most counter staff** available in one hour.
- Tap **Save café defaults**. The planner uses them right away.

> **Important:** Keep these numbers accurate. The AI's plan is only as good as these settings.

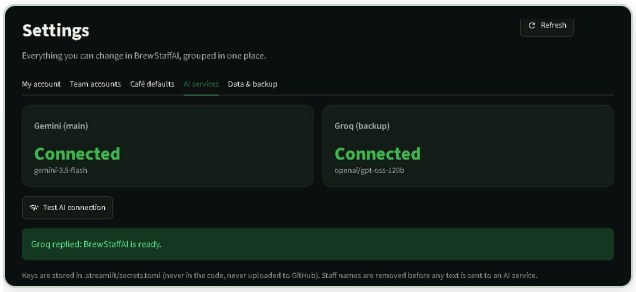

Figure 31. AI services (live system)

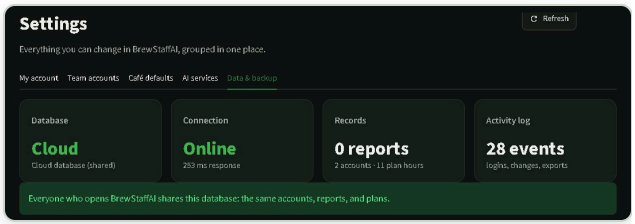

Figure 32. Data & backup (live system)

- **AI services:** shows whether Gemini and Groq are connected. **Test AI connection** should reply "BrewStaffAI is ready."
- **Data & backup:** should say **Cloud · Online**. **Prepare backup → Download** saves everything (without passwords) as a ZIP. Do this daily during the pilot.
- **Activity log** (its own tab): who did what, and when, in Philippine time.

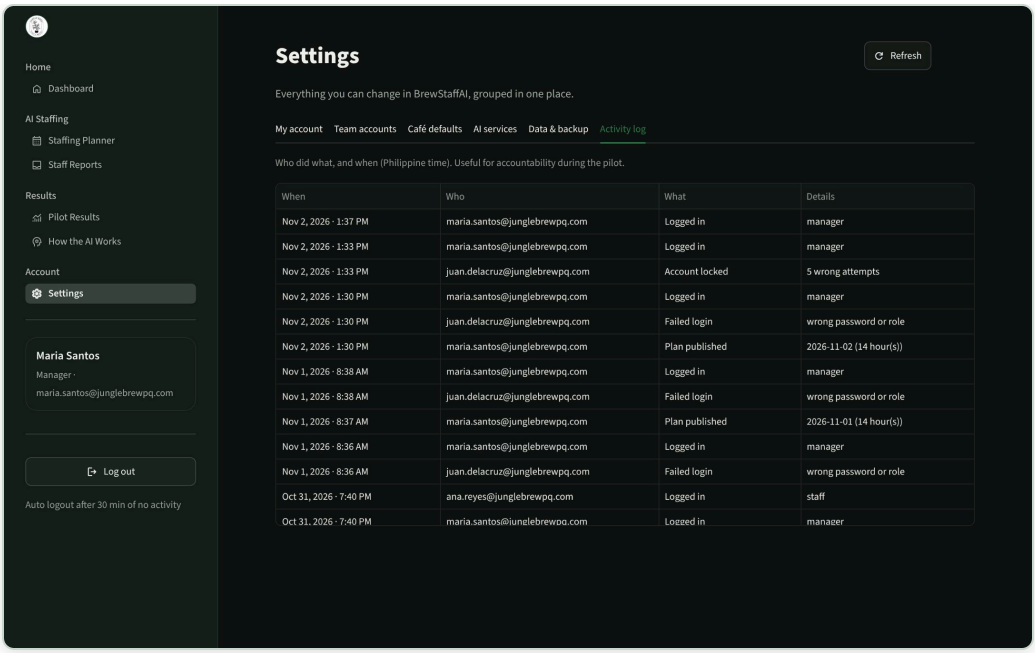

Figure 33. Settings → Activity log (sample data)

6. Understanding the AI results

Colors and levels

✅ **Okay** 7 minutes or less
⚠️ **Congested** 7–15 minutes
⛔ **Overloaded** over 15 minutes

Crew dots

🟠 amber dot = 1 cashier
🟢 green dot = 1 barista
Example: 🟠 🟢🟢 = 1 cashier and 2 baristas

Expected wait

Average minutes a customer waits in line, checked with the queue simulator (10 runs).

AI confidence

How sure the AI is about its prediction (e.g., 84%). Lower confidence means the hour is close to a limit.

"Generated by Gemini / Groq"

The text was written by the AI service. Gemini is the main one; Groq is the backup.

"Basic summary (AI is unavailable right now)"

The AI service didn't answer, so the app used a simple built-in summary. Predictions and plans still work.

Why the AI might be wrong sometimes

- The hour is very close to the 7- or 15-minute limit.
- Something unusual happened (promo, big group order, broken machine).
- The café settings (customers per hour, service times) are out of date.

Remember: BrewStaffAI gives recommendations. The manager knows the café best and always makes the final decision.

7. Privacy and security tips

✅ Do

- Keep your password private
- Log out on shared phones or computers
- Write about shift conditions only
- Tell the manager if you think someone used your account

❌ Don't

- Share accounts or passwords
- Write coworkers' names or personal details in reports
- Take screenshots of other people's reports to share
- Post the app's secret keys or setup code anywhere (team only)

Your data is used only for this study and kept until the end of December 2026. You may ask to see, correct, or delete your data. See the privacy notice in Settings.

8. Troubleshooting and FAQ

What you see	Why	What to do
'Incorrect email, password, or role'	Wrong password, or Staff/Manager choice doesn't match your account	Check the role buttons at the top; retype the password (tap the eye icon).
'Too many wrong attempts… locked'	5 wrong passwords	Wait 5 minutes, or ask the manager to reset your password.
'Personal emails are not allowed'	Using Gmail/Yahoo	Use your @junglebrewpq.com work email.
Forgot password	—	Ask the manager: Settings → Team accounts → Reset password.
'This account is deactivated'	Manager turned off the account	Talk to the manager.
Logged out suddenly	30 minutes without activity, or password was reset	Log in again.
'Yes, get this app back up!'	The free server was asleep	Tap it and wait about 30 seconds.
'Can't reach the database right now'	Internet problem or the database is waking up	Check your connection; tap Try again after a few seconds.
'Can't connect to the database: wrong password / address'	Setup problem (team side)	Tell the group leader; it must be fixed in the app's Secrets.
AI box says 'Basic summary'	Gemini and Groq didn't answer	Nothing to do; your work is saved. Try again later.
No crew plan on My Shift Today	Manager hasn't published today	Check later or ask the manager.
'Edit or delete' is missing	Report is older than 24 hours, resolved, or has a reply	Ask the manager to change it.
'Jungle Brew is closed on Sundays'	A Sunday was selected	Pick another date.
'You already sent this exact report'	Send was tapped twice	No action needed; the report was saved once.

Page looks stuck	Slow connection	Tap Refresh (top right) or reload the browser.

Frequently asked questions

Will my report affect my evaluation?
No. Reports are about shift conditions, and taking part is voluntary.

Can the manager see who sent a report?
Yes, so problems can be followed up. In the school paper, results are shown only as totals.

Does the AI decide our schedule?
No. It recommends; the manager decides and can change any hour.

Can I use it on a computer and my phone?
Yes. Everything is shared through one online database.

Is it free?
Yes. BrewStaffAI uses free services for hosting, the database, and AI.

9. Quick reference cards

Print this page and keep it near the counter.

👨‍🍳 STAFF · End-of-shift in 1 minute

1. Open **brewstaffai.streamlit.app**
2. Log in as **Staff**
3. Tap **Start my report**
4. Pick the busiest hour, customers, crew
5. Choose how busy it felt
6. Add a short comment (optional)
7. Tap **Send report** ✅

Something broke or ran out? → **Report now**. Replies → **My Reports**.

👩‍💼 MANAGER · Daily routine (5–10 min)

1. Log in as **Manager**
2. **Staffing Planner** → Generate AI plan
3. Check the colors; change any hour if needed
4. Tap **Publish this plan to staff**
5. **Staff Reports** → read New reports, reply or resolve
6. Weekly: AI summary + CSV
7. Pilot week: download a backup daily

✅ **Okay** ≤ 7 min | ⚠️ **Congested** 7–15 min | ⛔ **Overloaded** > 15 min

10. Glossary and support

Term	Meaning
Crew	Number of cashiers and baristas working in one hour.
Publish	Send the day's plan to staff so they can see it.
End-of-shift report	Short form about the busiest hour of your shift.
Incident report	Report about something unusual (broken, ran out, went well).
Archive	Hide a report with a reason; deleted after 30 days.
AI tag	Feeling and topic the AI assigns to a report.
Temporary password	One-time password from the manager; you must change it at first login.

Need help? Contact the BrewStaffAI team leader, **Denmark Nercua Tagomata**, at **+639919160399** / **denmarkntagomata.pup@gmail.com**, or ask the café manager.
